

Clinical Advisory Group Decisions

May 12-19, 2025

Project Decisions

Physician/App Advisory Group (5/15/25)

- **Metrics for Problem List Updated at Admission and at Discharge are approved**
 - Why: Active Problem List review when the patient is admitted keeps the patient's record accurate and timely for their hospital stay, as well as updated on discharge. This drives documentation and orders throughout the admission.
- **Physicians, APPs, Medical/NP/PA students can update the inpatient Problem List**
 - Why: Clinicians are best suited to populate diagnoses
- **Medical/NP/PA students may pend orders for provider signature**
 - Why: Orders will not be active until reviewed and signed by provider

Project Decisions

Physician/App Advisory Group (5/15/25)

- **ProcDoc charges (associated with procedure documentation smart phrase) will not pop up for residents** Why: Residents are not billing providers. Pop-up will appear when attending attests the procedure note.
- **Resident will have appropriate security and user role based on log-in department**
Why: Login Department will provide available tools for their current duties needed for each specialty rotation
- **APPs will be billing providers when they sign notes and drop charges in ambulatory and inpatient setting**
Why: APPs function as the sole billing provider on many services in the clinic and hospital
- **Only the Discharge Summary by an APP will require attending cosignature, all other notes will not**
Why: Per UAB Rules and Regulations

Project Decisions

Inpatient Advisory Group (5/15/25)

- No Building Block Decisions

Project Decisions

Ambulatory Advisory Group (5/19/25)

- **Overdue Result Messages will be sent to provider (at 30-60 days, pending)**
Why: Providers needs to know that a patient did not get a lab or imaging visit done. This time frame will help to limit excessive messages. Future orders will start the clock at the date the order is scheduled.
- **In Basket Pools will include front desk, clinical support, and provider-level**
Why: Built based on clinic workflow and specialty specifics.
- **Gratitude-only In Basket messages (“Thank you”) will be filtered out and moved to the Gratitude Hub.**
Why: These do not have clinical relevance and clutter up In Basket. They may be reviewed at a later date at the provider’s discretion.
- **Managers will populate themselves as pool managers**
Why: Managers are most familiar with their pools, system will not have to rely on IT to populate
