

Get started with Suki on mobile

Learn how to create a note using Suki.

Obtain verbal consent from the patient prior to recording

1 Start Ambient

Get consent, then tap **Start Ambient** to begin recording.

Ambient recording is started.
Tap **Pause** if you need to leave the room or have an unrelated discussion.

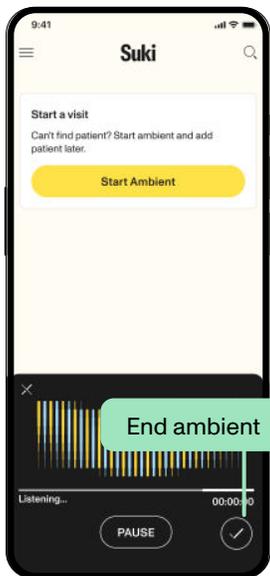

2 Conduct the visit

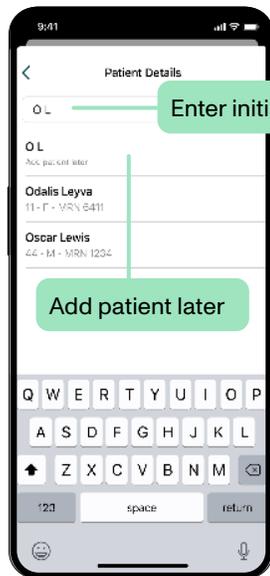

For better suggested notes:

- set mobile device down
- say the chief complaint
- say your specific findings
- summarize your plan

3 End ambient

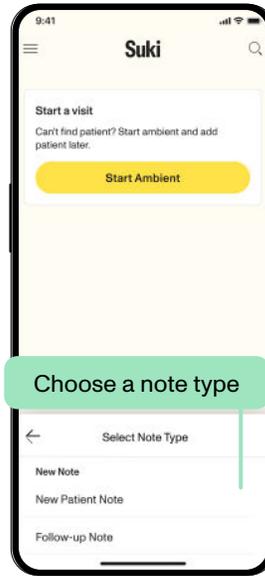

Tap the check mark to stop recording the visit.

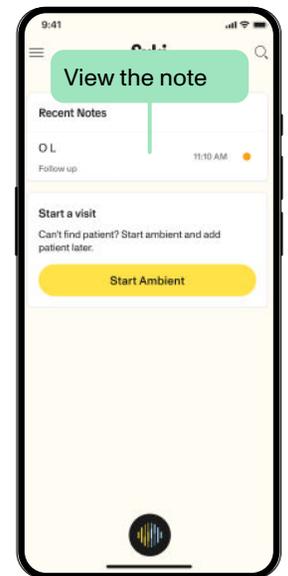

Enter patient initials then tap **Add patient later**.

4 View the note

Choose a note type to help Suki determine the sections of content to generate.

The orange dot indicates that the note is unfinished. Tap the note to open it.
